in Registered Bonds of the State of Alabama. FIRST to Make Deposit Policyholders' Protection!

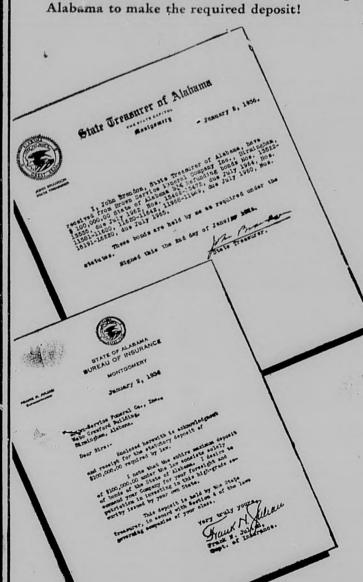

BROWN-SERVICE FUNERAL COMPANY DEPOSITS

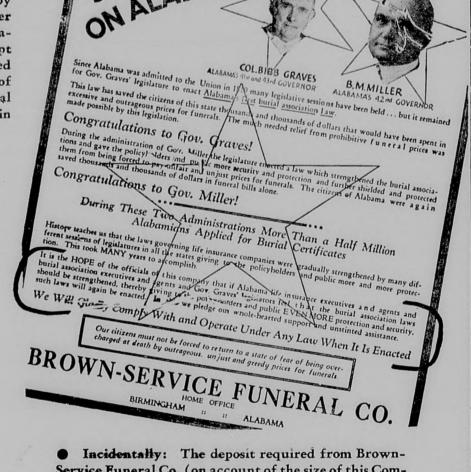

\$100,000.00 WITH STATE TREASURER

"Brown-Service" Puts Up One Hundred Thousand Dollars (\$100,000.00) Under State's New Burial Insurance Law to Further Protect "Brown-Service" Policyholders!

A little over a year ago . . . when we published the advertisement "Stars Fell On Alabama," which is reproduced in miniature size below . . . Brown-Service Funeral Co. pledged its wholehearted cooperation and support of any laws which might be passed by our Legislature which would further strengthen the Burial Insurance Companies and give EVEN MORE security and protection to the policyholders.

• Now . . a year later . . such a law meanwhile having been passed, which required from us a deposit with the State Treasurer in the sum of One Hundred Thousand Dollars (\$100,000.00)—Brown-Service Funeral Co. again evinces its 100% cooperation by making this huge deposit, as is evidenced by the letter reproduced below from Hon. Frank N. Julian, Alabama Superintendent of Insurance, and by the receipt from the State Treasurer of the \$100,000.00 deposited by us. This deposit was entirely in Registered Bonds of the State of Alabama. Thus Brown-Service Funeral Co. becomes the First Burial Insurance Company in Alabama to make the required deposit!

Service Funeral Co. (on account of the size of this Company) is exactly the same that is required to be deposited by even the largest of our Life Insurance Companies, \$100,000.00!

 Brown-Service Funeral Co. always hastens to comply with all legal regulations and welcomes the opportunity now afforded to further safeguard the interests of its vast and ever-growing army of policyholders. Scattered all over Alabama, Brown-Service's 103 modern and thoroughly-equipped Funeral Homes, assure prompt and efficient servicing of every Brown-Service Funeral Contract.

> WHY BLAME THE CLOTHING MAN?

THE clothing man is not at all enthusiastic about having to pay more for his stock of clothing because of taxes and other expenses created by governmental activities. Necessarily, if you expect to have a convenient place to buy clothing, somebody must be paid to maintain such a place. Your clothing man gets his pay in the form of "profit."

He's wondering if there's going to be any profit, because he's fearful clothing prices may go so high that people will buy fewer clothes. He's also fearful of the day when he's going to have to begin paying for the enormously increased expenses of government.

No one can sell anything for less than what it costs and expect to stay in business very long. That same thing applies to governmental participation in the light and power business-EXCEPT that the government can make up its losses through the assessment of taxes which your clothing man and you must pay—even if indirectly!
